URDU SCHOOLS:

The Local civil body is very committed to preserve the privileges of Muslim minorities and has given due attention to safeguard and enrich their language and culture. So the following numbers of Schools were established within the vicinity of the corporation.

No. of Urdu Elementary Schools	=	04
No. of Urdu High Schools	=	01
Total No. of Urdu Medium Schools	=	05

Moulana Abdul Kalam Azaad Urdu Medium High School in Eluru Corporation is the sole Urdu Medium High School in entire West Godavari District catering the needs of above a hundred students of purely Urdu medium.

Of all the seven high schools in the city three were founded earlier by the well known Gandhi an Activist, freedom fighter a great educational philanthropist and the Sarvodaya Movement leader, the erstwhile Minister late Sri Chintalapati Vara Prasada Murthy Raju Garu fondly called Murthy Raju in the fond memory of the Chintalapati Bapi Raju Charitable Trust. All three schools founded by him were named after their National Leaders and great patriots. They are: Kasturiba Girls High School, Bala Gangadhara Tilak Oriental (Sanskrit) High School and Andhra Ratna Duggirala Gopal Krishnayya High School. Still they are being run with same names by the local government.

Kasturiba Girls High School is one of the largest schools (Strenghtwise) in the district itself. Its strength is 956 during the current academic year 2016-17. Which is going to cross the milestone of 1000 students very soon. Though having the large strength, the school achieves 97% pass percentage in SSC March 2016 results. The School is catering the needs of girl students not only in city limits but also from the nearer villages like Ponangi, Kothuru, Venkatapuram etc., The infra structure and educational standards of this school are not less than any big corporate high school. It has been a Model School in the Corporation Management to implement any innovative programme with regard to school education. Totally the school working on par with the corporate schools in function and connecting the society to school in spirit.

100% Results:

The Management is proud to proclaim that two of its schools i.e., B.G.T.O High School and M.A.K.A High School achieved the hallmark of 100% pass. In all our schools could achieve 94% of pass on average this year. The statistics are as shown below:

No. of Students attended	=	810
No. of Students passed	=	761
Percentage of pass	=	94%

Steps taken for the improvement of Results:

- We've seen there is no scarcity of subject teachers especially who are handling X-class in all High Schools.

- The Management held meeting with the HM's and teachers from time to time to know the setbacks at ground level.
- Remedial classes were conducted for all classes.
- Extra classes were taken for X-class students.
- Interacted with the parents for the betterment their children.
- Followed each and every academic guidance of the district, divisional and Mandal Educational officers.
- Academic monitoring call worked to settle the problems if any then and there.
- Teachers worked heartfully aiming at the better results.
- The management gave all the support needed health from time to time.

Achieving 94% overall pass percentage may look quantitative side of our results.

Indeed the management has been taking several developmental measures in school education ensuring quality aspect of learning. The developmental activities are taken in two components.

1) Physical development of Schools 2) Quality enhancement on the other hand.

Providing Physical Facilities:

- ❖ All High Schools have been painted to afford an impressive look as we believe beautification of schools attract the pupils to come and stay there for a considerable time. It motivates the parents to get their children there as it looks like a corporate schools and children also like to study at a school where all amenities are available.
- ❖ Provided purified drinking water units in all our high schools to ensure the children have good health as we need healthy society.
- ❖ We are proud to promulgate that we have provided sufficient number of benches for children to sit in all our schools. No child should sit on the base floor slabs is our motto. Ultimately all our schools are well furnished. Almost all schools including primary and upper primary were electrified. As we have planned for the digital classrooms to be brought to use to the full extent.
- ❖ As a part of digitalization of schools. We have equipped all high schools with considerable number of computers with internet connection, overhead projectors and other technological equipment also. We are appointing computer instructors also.
- ❖ Our school laboratories are well equipped and there are now upgraded to college standards. Science classes are going in the respective laboratories. Because learning by doing makes children to learn the concepts fully.

Pucca Cycle Stands and Kitchen Sheds:

We have built sizeable cycle stands in the schools to keep the school premises in orderly system.

We built pucca kitchen sheds with RCC slabs for the preparation of midday meals hygienically.

Sports and Games:

“A sound mind lies in sound body”. Our schools are not factories where goods are manufactured. Our motto is to make every student get alound development in our schools. So we are parallely encouraging sports and games and physical literacy in our schools. So we have strengthened our schools in physical education also by equipping them with necessary sports and games material, equipment and play courts with state level standards.

- Arranged high quality Basket ball court at Kasturiba Mpl. Girls High Schools.
- Provided Multipurpose area for long jump, high jump and modern equipment for weight lifting in B.G.T.O High School.
- Excellent coaching is being given in Hockey at ARDGK and SESDM High Schools.
- A modern and spacious yoga hall was built in Gandhi Nagar High School where community is also practicing yoga for good health. Yoga can ensure the children both physical fitness and mental balance and control emotions. So we have made yoga compulsory in our schools.

Las but not least, by now all schools in our management have pucca buildings with spacious classrooms and impressive school ambience. We can say that there is no infra structure deficiency anywhere in our schools.

Career Foundation Course in Municipal Schools:

Honourable Minister and eminent educationist Sri P.Narayana hatched a career foundation course for all high school students in E.M aiming at achieving ranks in IIT's and other national institutes in both engineering and medical streams. In 2015-16 academic year 155 students at two centers in Eluru Corporation underwent the course and improved their G.P.A in SSC March 2016.

In the current academic year i.e., 2016-17, this course is being organized at 5 centers giving qualitative coaching in the foundation course for 560 students in all.

These students are given study material at free of cost and six coordinators are representing the entire west Godavari district from eluru municipal corporation only.

Both the parents and students are very much content with the coaching of foundation course. They feel it is very useful course which can make the students aim noble targets and achieve them literally.

Corporation from NGO's and Voluntary Organisations:

Eluru Municipal Corporation Management is contemplating to create healthy ambience in its schools taking the assistance of NGO's and voluntary organizations. Thus we are trying to link our schools with the society and ultimately school children will be able to respond to the social grievances.
